

About Our Staff

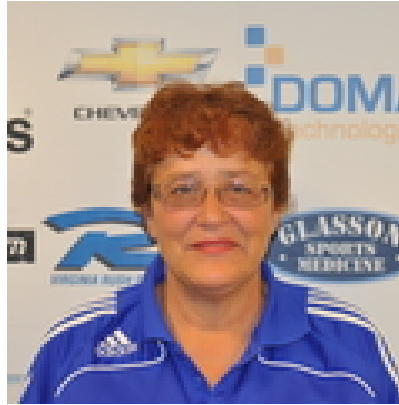

The Rush takes great pride in the Coaches and Administrators that work for us, both part time and full time. In fact, they are the cornerstone and backbone of who and what we are.

Developing soccer players and programs are the primary objectives for our Staff, but what cannot be underestimated is the importance of these individuals shaping lives. Today, our Coaches must be technically proficient and tactically sound, have an understanding of how to teach players to take care of their bodies. Administrators must be up to date with the advancements in technology, communication avenues and customer service. Our Staff must be able to motivate and build self-esteem in our members, players and parents alike, helping educate them along the way. All this simply means is that we need quality, well-rounded men and women to lead our members to success both on and off the field. We are now teachers, motivators, psychologist, mentors and more.

Staff

Created on Monday, 06 June 2011 18:49

Our Staff continually strives to succeed and raise the bar to the next level. It is a great opportunity to work in the Rush, the best soccer organization in America. We are proud to boast the hard working professionals the Virginia Rush has who embrace this opportunity and thrive with this responsibility.
